QUINT UPS with IQ Technology, for DIN rail mounting, input: 24 V DC, output: 24 V DC / 5 A, charging current: 1.5 A

#### **Product Description**

The intelligent QUINT UPS for integration into established industrial networks: your systems continue to be supplied with uninterrupted power, even in the event of a mains failure. The battery management system with IQ Technology and a powerful battery charger ensures superior system availability.

#### Your advantages

- ☑ Easy integration into networks using PROFINET, EtherNet/IP, EtherCAT® and USB interfaces
- ☑ Evaluation of state of health (SOH) and state of charge (SOC), thanks to the intelligent battery management system (BMS)
- Automatic recognition of the battery capacities and technologies (VRLA-WTR, LI-ION)
- Monitoring of output current and voltage, as well as manual connection and disconnection of the system
- SFB Technology selectively trips standard miniature circuit breakers. Loads connected in parallel continue working.
