MasterView Easy

Product code: 77010305

MASTERVOLT
THE POWER TO BE INDEPENDENT

This touchscreen control panel is easy to read and operate. The grey button turns the display on or off or locks it, while all other functions can be controlled using the touchscreen.

The first of three control levels provides a short system overview with all the information you may need on a daily basis. The product overview screen shows detailed information. The favourites screen can be custom designed to meet your specific needs for information and control. The MasterBus cable is used for data transfer and as a power supply for the display.
